

BOSCH

Compress 5800i heat pump

Homeowner guide

Smaller, quieter, easier

Purpose-built for Irish homes and Irish weather, the all-new and compact CS5800i air to water heat pump brings a more responsible and efficient way to keep you warm, wherever you live.

Why choose the CS5800i air to water heat pump?

Quiet quality

Enjoy the peace with our quietest heat pump ever

Stylish design

Sleek, small, outdoor unit looks good in your garden

Performance

Lower carbon emissions, higher flow temperature, improved home comfort

Peace of mind

Remote monitoring via HomeCom Easy app for your reassurance

Space-saving

All-in-one hot water tower option saves space

Smart design

Air to water design uses air to heat your home

Control your heating

Simple to control, there's a choice of digital thermostats to suit your needs, with the option to control your heating via the Bosch HomeCom Easy app with the Connect-Key K30.

Take control and view our controls.

Configure your system

Your installer will help you configure the best set-up for your home.

Speed up your set-up

Short on time or space? Our all-in-one tower unit contains a hot water cylinder, key components and controls, saving space in your home.
