

BOSCH

Installer's guide to the
GREENSTAR 2000

THE BEST BOILER NOT VERY MUCH MONEY CAN BUY

We asked installers for feedback
on the previous Worcester 2000

An easy to operate,
affordable, high
quality boiler.

Carl Harris

Carl @ CH Heating Services

Great boiler at
a great price.

Ian Scott

Ian @ Calefy
Heating Solutions

An awesome
boiler at a
great price.

Ben McAdam

Ben @ Adams Gas Heating

Stylish, affordable,
quiet boiler
that's also light &
spacious inside!

Luke Beard

Luke @ B-Tech Heating

A favourite with our
customers. Efficient,
stylish and easy
to use controls.

David Hunt

David @ DRH Plumbing and Heating Ltd

You talked, we listened!

We kept everything you loved about the Worcester 2000 and made
some improvements to the Greenstar 2000 that you requested.

Because everyone deserves quality.

- ▶ The Greenstar 2000 is our price competitive combi boiler, suitable for apartments, small and medium sized homes with one bathroom.
- ▶ With hot water flow rates up to 12 l/min, the range also comes with a 5 year guarantee as standard, and a 6 year guarantee when installed with the Greenstar System Filter*.
- ▶ PRV pipe upgraded to a copper elbow with a 15mm push-fit accessory included.
- ▶ Copper tails for CH flow and return are included to save time and additional pipe-bending effort.
- ▶ Quick tap water-saving function**. Customer can open their tap and immediately close it. When the tap is closed, the boiler fires and brings the plate heat exchanger to the DHW set point. Within 30 seconds the customer can open the tap again and hot water is instantly available.

+ Full 230V controls compatibility

+ Easier PRV push-fit connection

6 YEAR Guarantee*

+ Mains cable now replaceable

+ CH flow and return copper tails included

*Subject to terms and conditions.

**When boiler is in ECO mode and hot water tap flow rate is at least 2.5 l/min.

Features

Natural gas combi boilers with outputs of 25kW and 30kW.

C6 heat exchanger. An evolution to our tried and tested WB3 heat exchanger.

Pipe tails and push-fit PRV increases the ease of installation.

Ability to modulate down to as little as 4.8kW.

Easy access with removable side panels.

Quietest Worcester Bosch combi.

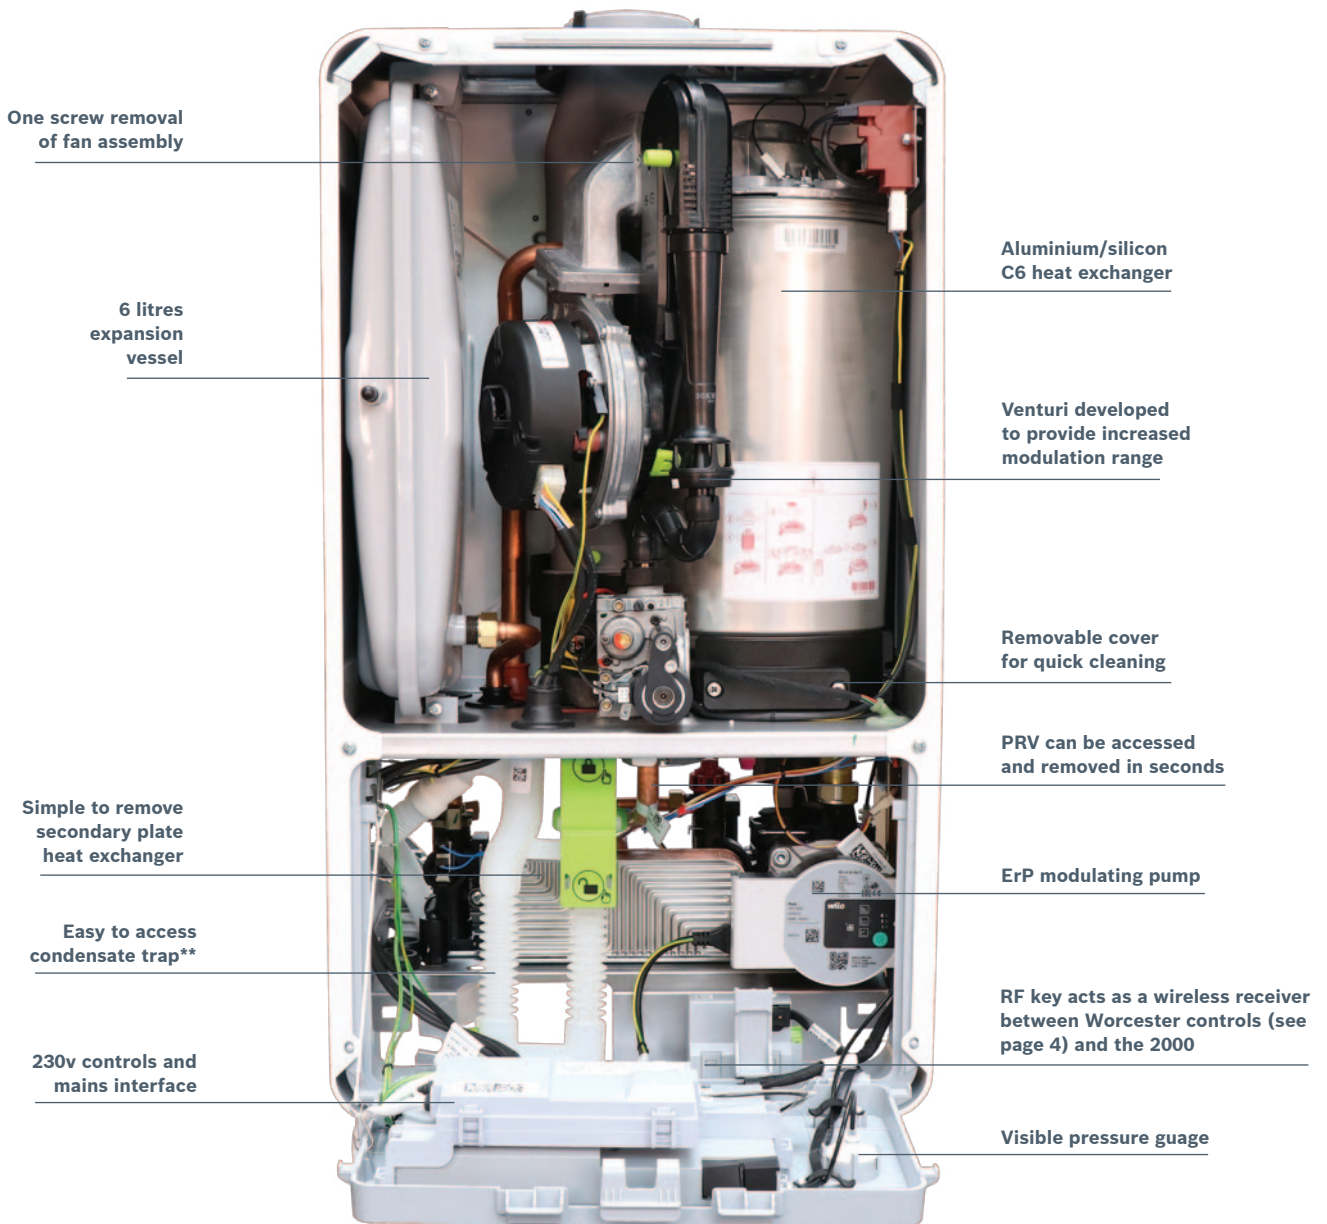

Maximum flue lengths of 9m horizontally and 12m vertically (60/100).

Quick tap water-saving function. Ideal for homeowners on a water meter.

The Inside Story

Like our entire gas boiler range, you can be assured in knowing you have recommended and installed the best in reliability, all the while having the back up from the market leaders in technical and customer support. Once the individual side panels are removed, a host of additional installer benefits are revealed. Peace of mind comes with a 10 year guarantee* on the primary heat exchanger.

*Subject to terms and conditions.

** It is a requirement that the condensate drain is installed internally. If external disposal is the only means of condensate discharge, then the CondenseSure siphon or a condensate pump must be fitted.

Boiler Control Display

The Greenstar 2000 features a push-button LCD display, and incorporates diagnostic codes similar to that of our 8000 Life boiler, making day-to-day operation easy and reliable.

Controls

Bosch EasyControl RF Key

Part No. 7 738 112 351

- ▶ Enables the EasyControl to be wireless.

Bosch EasyControl Stand

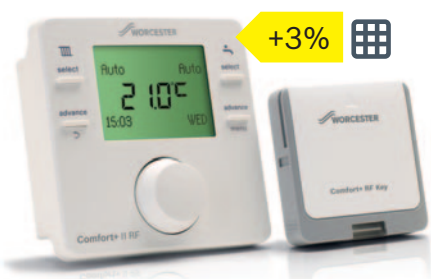

Part No. 7 736 701 576

Bosch EasyControl controller

Part No. 7 736 701 341 (white)

Part No. 7 736 701 392 (black)

- ▶ Control times and temperatures for heating and hot water from your smart device.
- ▶ Easy to use and set up with simple displays and an intuitive app, which can be shared with up to 6 family members.
- ▶ Visual graphs to monitor heating and hot water use.
- ▶ Decide heating times and temperatures for individual rooms remotely with the Bosch EasyControl Smart TRVs (Part No. 8 750 000 270).

Greenstar Comfort+ II RF

Part No. 7 738 112 324

All the features of the Greenstar Comfort+ range all in one unit.

- ▶ Programme and control heating and hot water at the room thermostat.
- ▶ 6 adjustable heating temperatures for each set-point per day.
- ▶ Pre-paired "plug & play" key receiver for easier installation.
- ▶ Boiler Plus compliance as standard.

Greenstar Comfort+ Stat RF

Part No. 7 738 112 338

Boiler Plus compliant control to add to your existing 230v timer.

- ▶ Wireless, single set point, room thermostat for those wanting a simpler way to control their heating.
- ▶ Pre-paired "plug & play" key receiver for easier installation.
- ▶ Load compensation for enhanced efficiency.

Boiler software has now been updated to allow greater compatibility with a wider control range. Our most price competitive controls, the **MT20/RF mechanical controls**, offer more choice to end users who value tradition over connectivity.

Your Comfort, Sense and EasyControl will receive the same guarantee length as the boiler it is installed with. Terms and conditions apply. 6 year guarantee when also fitted with any Greenstar System Filter.

Greenstar Heating System Care Packs

Our Greenstar Heating System Care Packs allow you to offer a cost-effective system solution, while complying with both Boiler Plus and BS7593. Each pack includes a Worcester Bosch control, Greenstar Mini System Filter, and a WB1 inhibitor and WB3 cleaner.

Greenstar System Care Packs	Part Number
Wireless Bosch EasyControl (white) RF Care Pack	7 733 600 433
Wireless Bosch EasyControl (black) RF Care Pack	7 733 600 443
Wireless Comfort+ II RF Care Pack	7 733 600 423

Greenstar System Filter Range

The Greenstar 2000 comes with a 5 year guarantee as standard. A 6 year guarantee, for added peace of mind, can be achieved when fitted with one of our Greenstar System Filters or Care Packs.

The Greenstar Mini System Filter, offers the same features as our current range but in a more compact size. Our Greenstar Brass System Filter is the latest addition to our current range, embodying quality engineering and design.

Technical data

Model		2000 25kW	2000 30kW
Part number		7 736 902 099	7 736 902 100
